### OUR MISSION

Welcome to Behavioral Sightings, a monthly magazine for behavioral health care professionals.

The magazine goes behind the scenes to provide information on the drug and alcohol rehab industry by focusing on people and facilities providing treatment. We cater to therapists, counselors, psychologists, interventionists, doctors, nurses, volunteers and executive level decision makers in public, private and not-for-profit organizations.

Behavioral Sightings Magazine focuses on the industry's community leaders and top influencers. Through news and reviews, insights from key players and coverage of conferences; the magazine inspires, informs and offers connections in the addiction treatment industry.

Each issue of the magazine includes reports and photographs of local, regional, and national industry conferences. The magazine also publishes articles on treatment centers and highlights their services and amenities and how they've succeeded in providing quality care to their patients and clients.

Read the current issue of Behavioral Sightings to learn of opportunities to network with your peers and make new connections!
